

#### MARKETS SERVED

Agricultural  
Industrial  
Food & Beverage  
Military  
Transportation

#### ADVANTAGE OF FOAM

Contact time maximizes chemistry's effectiveness

Visual marker for equipment operator

Expansion rates reduce water and chemical usage

Reduced labor costs

# Battery Foam Unit

FI-10 BLF (low flow)  
FI-10 BHF (high flow)

#### SPECIFICATIONS

10 gallon non-pressurized tank

Onboard 12V battery

12 foot coiled foam hose

Approx 1hr of continuous foaming

The new patent pending battery foamer is powered by a 12 volt rechargeable battery. Dual tube technology creates thick foam by mixing air and solution at the trigger wand. The battery lasts for over one hour of continuous foaming which produces up to 150 gallons of foam. The unit is available in high and low flow models to meet the needs of a wide range of industrial and institutional applications.
