Wall Spray-iT Unit

SPECIFICATIONS

Air operated pump

5 cfm at 40 psi

2 gallons per minute at 40 psi

50 feet of 3/8 inch spray hose

SI-1

The wall mounted unit operates using an air operated double diaphragm pump. It comes complete with 50 feet of 3/8 inch discharge spray hose with a trigger gun and spray tip. The spray tip projects the liquid in a 25 degree flat spray pattern. It can be used to spray a variety of chemical products including: sanitizers, acids, caustics, and chlorine products.
