MODEL NUMBER:
5L-PSG

1.3 gallon (5 liter) Pump-Up Foam Unit

English (Original Instructions)
READ ALL INSTRUCTIONS BEFORE OPERATING EQUIPMENT

WARNING

Read this manual completely and understand the machine before operating or servicing it.

- Read all instructions before installing or operating unit.
- Always wear appropriate personal protective equipment (PPE) when operating or servicing unit.
- Always follow all chemical safety precautions and handling instructions provided by the chemical manufacturer and Safety Data Sheet (SDS).
- If this unit is modified or serviced with parts not listed in this manual, the unit may not operate correctly.
- Never point the discharge wand at yourself, another person, or any object you do not want covered in chemical.
- Never leave unit unattended while pressurized.
- Always depressurize unit before attempting to remove the pump assembly.
- Always depressurize unit after use (as described in the After Use Instructions). Always store unit depressurized.
- Do not pressurize unit by any means other than the built-in pump assembly.
- Do not modify or remove pressure relief valve. Do not use unit if pressure relief valve is not operational.
- Always flush the unit with fresh water for 5 minutes when switching from an alkaline to an acid or an acid to an alkaline.
- Never use unit with hydrocarbons or flammable products.
- Do not exceed a fluid temperature of 100°F (37°C).

PROTECT THE ENVIRONMENT

Please dispose of packaging materials, old machine components, and hazardous fluids in an environmentally safe way according to local waste disposal regulations.

Always remember to recycle.

*Specifications and parts are subject to change without notice.

READ ALL INSTRUCTIONS BEFORE OPERATING EQUIPMENT

Operation Instructions:
1. Ensure all air pressure is released from unit by pulling up on the red pressure relief valve.
2. Ensure the trigger handle (PSG12) is not in locked position.
3. Securely hold the unit and unscrew the pump assembly (PUFSL-PA) from the tank in a counter-clockwise motion.
4. Follow all instructions from chemical manufacturer. Fill tank 3/4 of the way with pre-mixed solution. (Note: Do not overfill tank with solution.)
5. Securely hold the tank and screw the pump assembly back on in a clockwise motion.
6. Pressurize the tank by pumping approximately 15 to 20 times, or until air pressure gauge reads 25 psi (1.7 bar). (Note: The pressure relief valve will leak if the air pressure is too high. Do not overfill tank with air)
7. Once the desired pressure has been achieved, push the handle down and twist it clockwise to lock it in place.
8. To start foaming, point the wand assembly at the area you wish to foam and squeeze the trigger handle to discharge foam. Release trigger handle to stop foaming.

After Use Instructions:
1. Ensure all air pressure is released from unit after each use by pulling up on the red pressure relief valve.
2. It is recommended to always empty out remaining solution and run fresh water through the unit to rinse all parts thoroughly after each use and before storage.

Maintenance Instructions:
Warning: Always depressurize unit before performing maintenance.

To keep your unit operating properly, periodically perform the following maintenance procedures:
- Check the pump assembly (PUFSL-PA) for wear and leaks.
- Check the suction tube for debris and clean as needed.
- Inspect hoses for leaks or excessive wear.
- Replace wadding inside trigger handle assembly as needed. Replace wadding by following steps below:
  1. Unthread the wand (PUWAND).
  2. Remove the wadding (WAAD-.625) inside the wand and discard.
  3. Insert new wadding in poly wand.
  4. Remove washer in trigger handle (PSG12) and set aside.
  5. Remove wadding (WAAD-.5) inside trigger handle and discard.
  6. Insert new wadding and washer inside the trigger handle.
  7. Thread the wand back on the trigger handle.
- Periodically lubricate the pump seal with food safe lubricants. To lubricate the pump seal, raise pump handle and apply 5 to 10 drops of food safe lubricant between pump and pump sleeve. NEVER USE LUBRICANTS SUCH AS WD40.

TANK ASSEMBLY

ITEM NUMBER | DESCRIPTION
---|---
H14B-H | 1/4 INCH BLUE HOSE - GOODYEAR HORIZON - Available per ft.
HBSS1214 | 1/2 NPT X 1/4 INCH BARB STAINLESS
PSG12 | 1/2 IN POLY SPRAY GUN WITH O-RING AND GRAY HANDLE & 316SS
PSGORV | PSG12 O RING
PUF5L-PA | PUMP ASSEMBLY FOR 5 LITER PUMP UP FOAM UNIT
PUWAND | PUMP UP FOAMER WAND
TANK5L | NATURAL 5 LITER TANK WITH PRESSURE GAUGE
WAAD-.5 | WAADING FOR PUMP-UP FOAMER - 1/2 in DIA.
WAAD-.625 | WAADING FOR PUMP-UP FOAMER - .625 in DIA.
